

First National Bank

You. First. Always.

ACH Manager

Save time and money. No more wasted time writing checks or spending money on postage.

Automated Clearing House (ACH) is an online cash management service that provides business customers a convenient way to transfer electronic payments and deposits through the National Automated Clearing House (NACHA) to nearly any U.S. financial institution.

Business owners benefit from:

- direct deposits of payroll
- on-site training & set-up with First National Bank expert
- automatic payments delivered on time, every time
- funds credited faster to accounts
- ability to make Federal & state tax payments
- reduced risk of fraud & unauthorized access

Setup is hassle free. Complete the enrollment form and provide a voided check or savings account information; then we take it from there.

ACH Manager helps you increase revenue opportunities at a low cost:

- one-time set up fee of \$100.00
- \$0.25 per transaction
- \$10.00 monthly fee

Your business can only move as fast as your cash flow. At First National Bank, we want to help you speed up the process, so there's no lag time between sending and receiving your payments.
